Introduction of ULTRA PREMIUM THREAD

The Aesthetic Power of ULTRA Threads

ULTRA Threads premium lifting thread made of PDO (polydioxanone) which is absorbed after proliferating collagen by stimulating fibroblasts. Any of you can experience overall face contouring, skin body elasticity. It bring natural and dramatic effect to face and body after simple and safe treatment. The superior quality of the Ultra Thin Wall needle allows the Treatment easy, Dramatic and painless. The Cosmoderma has developed and exported PDO (Polydioxanone), PLLA (Poly-L-Lactic-Acid) and PCL (Poly-caprolactone) them to many countries around the world.

Why do you use ULTRA THREAD?

- 01 Safe and perfect anti-aging solution ULTRA THREAD used when you want a perfect V-Line recognized by all Korean doctors.
- 02 Soft special coating needles can be used to smoothly insert into the skin.
- 03 Ultra thread uses absorbent special threads to activate and increase collagen in the lifting effect and dermal layer, thereby improving overall V line, increasing skin elasticity, improving skin tone, and creating a perfect V line in the face and body treatment area.
- 04 ULTRA Thread effects brightening, V-line, wrinkle care, skin care, tightening, Reduction of Cellulite
- 05 It's a powerful thread to revive your skin age.

ULTRA Thread & ULTRA Premium Thread Needle Types

Variable types of needle that suit the usage of thread & preference of users.

Sharp A type Needle

Easy to adjust the direction and depth during thread insertion. Allows precise and delicate procedures.

Blunt type Needle

It is a convenient needle that can be easily operated with a basic needle and fixed directly to the skin tissue.

L-type Cannula I Needle used for Ultra premium thread

The needle is L-shaped, which has the advantage of being able to perform the procedure accurately at the desired location during the procedure. L needles are suitable for volume and nose procedures and have a strong effect on beauty.

W-type Cannula I Needle used for Ultra premium thread

It is the most recommended cannula for lifting procedures and is used in thick thread types to create beauty.

U-type Cannula I Needle used for Ultra premium thread

The U-type cannula has a similar shape to the W-type cannula. The method of use is also the same as the W-type cannula and is recommended for face, eye, lip, and neck procedures that prevent aging and add beauty.
