based on R&D.

COMPANY INTRODUCTION

Overview of the company

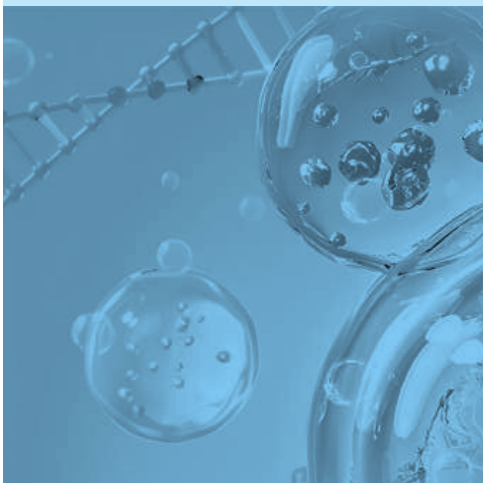

COSMODERMA is a dynamic and enterprising beauty care company based on R&D. Since its foundation in 2020, we have been developing products using high-quality and safe materials to ensure trust with customers.

Based on excellent technology and R&D production infrastructure, we are constantly striving to realize healthy beauty by predicting and developing high-quality and safe products that customers need.

Furthermore, our company's biggest goal is to share the best value by focusing on partnerships with domestic and foreign customers.

We will grow into a leading global medical beauty company through continuous research and development, thorough quality management, and transparent management.

FILLER

ULTRA CA+

ULTRA CA+ is an advanced calcium filler used to restore volume, smooth wrinkles, and stimulate collagen production for long-term skin rejuvenation. Its unique formula is made of calcium hydroxylapatite (CaHA) microspheres suspended in a gel carrier. This composition not only provides immediate volume correction but also promotes the body's natural collagen production, enhancing skin texture and elasticity over time.

Main Ingredients: CAHA (Hydroxylapatite) 300mg/mL, Glycerin 44.8mg/mL

Content: 0.8mL x 2 Syringes

ULTRA PLLA

ULTRA PLLA is a new generation of collagen stimulators in aesthetics that provides immediate and sustained correction by volumization through biostimulation, with long-lasting effects for 1years more and high degree of patient satisfaction. Sub-dermal implantation of ULTRA-PLLA in the face is indicated for lasting correction of facial wrinkles and ageing signs or any facial age-related conditions.

Main Ingredients: PLLA 200mg, 70% aqueous CMC-based gel carrier

Content: 200mg x 1 vial

ULTRA FILL KISS

ULTRA FILL KISS is a highly safe product due to a strict quality control and assurance system involving a two-stage purification process of two weeks that completely eliminates harmful substances and BDDE from the raw materials.

Main Ingredients: Cross-linked Hyaluronic Acid 24mg/ml, Lidocaine HCL 3mg/ml

Content: 1.1mL x 1 Syringe

ULTRA FILL

ULTRA FILL has a compact hexagonal structure linked using HBCT (Hexagonal Block Cross-Linking Technology). HBCT was developed by Reanzen to delay the filler's decomposition rate in the body and improve its duration.

Main Ingredients: Cross-linked Hyaluronic Acid 24mg/ml, Lidocaine HCL 3mg/ml

Content: 1.1mL x 1 Syringe

ULTRA BODY

ULTRA BODY is a sterile cross-linked hyaluronic acid gel, colorless, transparent and odorless, processed from non-cross-linked hyaluronic acid supplied by a non-animal origin and it can restore, create volume and also fill your deepest wrinkle also..

Main Ingredients: 100% Cross-linked HA), 24mg/ mL

Content: 60mL x 1ea

ULTRA BODY 10mL

ULTRA BODY is a sterile cross-linked hyaluronic acid gel, colorless, transparent and odorless, processed from non-cross-linked hyaluronic acid supplied by a non-animal origin and it can restore, create volume and also fill your deepest wrinkle also..

Main Ingredients: 100% Cross-linked HA), 24mg/ mL

Content: 10mL x 1 Syringe

**ULTRA PLLA

COSMODERMA PRODUCTS LINE

COSMODERMA uses an ULTRAPURE grade of hyaluronic acid.
We guarantee our customers the purity and safety of this product.
Because we insist on using only hyaluronic acid from HTL in France.

SKIN BOOSTER

ULTRAGEN X

ULTRAGEN X is an advanced collagen therapy product designed to promote skin regeneration and improve elasticity. It primarily uses collagen and exosome, which stimulates the body's natural collagen production, helping to reduce wrinkles, improve skin firmness, and treat scars.

Main Ingredients: Hydrolyzed collagen(300Mw), UltraExo(Exosome-stem cell culture medicum), Plant-derived exosomes, Cellixir skinactivator

Content: 100mg x 3 vials

ULTRA HILO

ULTRA HILO is an advanced injectable treatment designed to improve skin quality, hydration and elasticity. It is primarily composed of a high concentration of hyaluronic acid (HA), a naturally occurring substance in the skin that retains moisture and supports firmness.

Main Ingredients: 3.2%- 32mg(H-HA)+ 32mg(L-HA)/2ml, Hyaluronic acid sodium salt

Content: 2ml x 1 Syringe

ULTRA HAIR

ULTRA HAIR is a hair loss prevention treatment that improves hair loss and baldness in men and women. It restores hair follicle vitality and stimulates blood circulation to promote hair growth. It improves scalp troubles and increases hair thickness and volume. It stimulates and strengthens hair follicles. It moisturizes hair and scalp.

Main Ingredients: Exosome, Tetra Peptide-44, FGF, EGF, KGF, IGF, AHK

Content: 3mL x 5 vials

ULTRA WHITE

Ultra WHITE is an innovative injectable treatment designed to brighten skin, reduce pigmentation, improving dark circles and promote an even complexion. Powered by Tranexamoyl Dipeptide-22, a derivative of tranexamic acid, this advanced formulation offers superior skin-whitening effects by targeting the root causes of hyperpigmentation while improving skin health and texture.

Main Ingredients: Tranexamoyl Dipeptide-22, Tetrapeptide, Oligopeptide-2 (IGF-1), Polypeptide-1(bFGF), Glutathion, Vitamin C, Albutin, Niacin Amide

Content: 3mL x 5 vials

ULTRA EYES

ULTRA EYES is a specialized skin rejuvenation treatment designed specifically for the delicate skin around the eyes. which uses polynucleotides (PN) derived from salmon DNA to repair and regenerate skin at the cellular level. This treatment is particularly effective for addressing common under-eye concerns such as dark circles, fine lines, wrinkles, puffiness, and sagging.

Main Ingredients: HA 10mg/mL, PN 2mg/mL

Content: 1.1mL x 1 Syringe

ULTRA REJU

ULTRA REJU contains 1% of PN and 1% of PDRN to activate the tissue regeneration mechanism of the human body and participates in the overall wound cycle to give a quick wound healing effect.

Main Ingredients: PN 1%, PDRN 1%

Content: 3mL x 5 vials

ULTRA LIGHT

Ultra light is Peptide-Based Fat Dissolving Injections. Achieve a sculpted body and smooth contours with peptide-based fat dissolving injections, the latest innovation in non-surgical fat reduction.

Main Ingredients: NPToc, Multi-Peptide, Juglans Regia, Fucus Vesiculosus

Content: 2cc x 10ea

VNS

It is a high-concentrated premium VNS solution that combines only papain enzyme and excellent ingredients for fat decomposition to increase metabolism of fat cells and accelerate it. It is distinguished from existing contour injection.

Main Ingredients: Papain Enzyme, Lecithine, Centella Asiatica

Content: 10ml x 5 vials

SHINING PEEL

Shining peel is an innovative, medical-grade chemical peel that combines exfoliation and skin rejuvenation. Unlike traditional chemical peels, it uses a patented two-phase technology to deliver significant skin improvements with minimal downtime, making it a popular choice in aesthetic medicine.

Main Ingredients: TCA 35%, RETINOL, VITAMINE B12

Content: 6mL x 5vials

AQUA CREAM

As a W/S (Water in Silicone) type product, there is water in the silicone oil. It applies thinly and is not sticky. The more you rub, the water in the silicone oil. It forms on the surface and naturally penetrates into the skin.

Main Ingredients: Sodium hyaluronate, Hydrolyzed collagen, Matricaria Flower Extract, Algae extract, PDRN, EGF

Content: 50mL

LIPOLYSIS and OTHERS
